

Revision of Hydraulic Mobile Crane and Mobile Platform (Sky Lift) Rental Rates

The announcement of price increase / hike of RM 1.00 per liter in diesel on 4th June 2008 has rendered severe burden to all hydraulic mobile crane and mobile platform (sky lift) owners and their associates. Further to the above, they are also further burdened by the price and wages increases in lubricants, tyres & tubes, spare parts, hydraulic oil, batteries, crane operators and many other related incidentals.

Our members can no longer sustain their operation if the service rental rates are not revised accordingly. After an emergency meeting with both mobile crane and mobile platform owners, we hereby recommended that new rental rates in and around **Kuala Lumpur and Klang Valley** to **TAKE EFFECT IMMEDIATELY**.

The revised rental rates of hydraulic mobile cranes and mobile platforms (sky lifts) are tabled as follows:
